Trusted Woodcare Since 1879

LEMON OIL POLISH

Parker and Bailey products originated when Mr. Bailey, a respected furniture maker joined forces with Mr. Parker, a manufacturer of fine waxes and polishes. A small container of Parker's Perfect Polish was included with each furniture sale. Customers kept returning for more, which gave Parker the idea to join forces and package the products for everyone. So in 1879, Parker and Bailey began producing fine furniture care products in Maine. These basic, traditional formulas, tried and tested for over a hundred years, have a dedicated following among furniture restorers and antique experts alike.

Use Parker and Bailey's Lemon Oil Polish to dust and polish furniture and woodwork throughout the home. It instantly turns your dust cloth into a powerful dust magnet leaving surfaces clean and with a brilliant shine. The rich moisturizing oils help protect wood surfaces from sun fading, drying, and cracking.

Parker and Bailey use only the finest quality natural oils. This special lemon oil blend provides first aid to older furniture surfaces by replacing lost oils in places where the finish may be worn. Generously apply to natural woodwork around windows to clean and shine, and help prevent heat and sun damage. Home Tip: Use Lemon Oil Polish on sink surfaces and fixtures, shower walls and doors. It leaves a gleaming finish and helps prevent soap residue build-up.

DIRECTIONS: Remove seal under cap before use. Pour Lemon oil Polish onto a clean dry cloth and apply to surface.

CAUTION: Keep out of the reach of children. In case of eye contact, rinse thoroughly with water.

Safety data sheet available for professional user on request.

Contains 227-813-5 (R)-P-MENTHA-1,8-DIENE. May produce an allergic reaction.
Contains 273-309-3 HYDROCARBONS, TERPENE PROCESSING BY-PRODUCTS. May produce an allergic reaction.
