

POPPING CANDY

CARBONATED
CRACKLE CRYSTALS

Serving suggestion

Butter-coated sugar crystals contain encapsulated carbon dioxide for a mouth-popping sensation that really gives that wow factor when dining.

Simply sprinkle onto finished cakes and desserts just before serving, for that maximum pop.

Ingredients:

Sugar, glucose, cocoa butter (7%), carbon dioxide (4%), lactose (**milk**).

For allergens see ingredients in **bold**.

Store:

In a cool dry place, away from direct sunlight. Replace lid when not in use.

Made for Lakeland. Produce of Turkey, packed in Northern Ireland.
