DIRECTIONS FOR USE

1 Remove filter from extractor unit and place in sink. Do not use on carbon or non-metal mesh filters. **2** Spray evenly over the whole filter and leave for approximately 15 minutes. If cleaning for the first time an extra 15 minutes may be required. **3** Rinse filter under a hot tap and dry before placing in extractor unit. Always test on an inconspicuous area before use. Use within 24 months of opening. **Use regularly to keep extractor fans working properly and prevent build-up of residue.**
