

DIRECTIONS

- 1** Apply the mounting plate to the inside of the Airing Cupboard door, using the sticky pad, pressing firmly. Check for good adhesion.

Mount in suitable location - Out of the reach of children and avoiding touching any content when the door is closed.

- 2** Taking the unit in the palm of your hand, press the plunger down firmly with thumb until it reaches its full travel (2 "clicks").

- 3** Apply unit firmly to mounting plate and check coupling is secure. Product ready for use. Replace within 7 days of the bulb being empty or after approximately three months.
