The Swiss Original against Limescale

durgol® universal

quickly removes limescale from all household items. Its formula guarantees efficient, yet gentle, food-safe and environmentally friendly decalcification. It has a neutral odour and produces no vapours.

Important advice

durgol universal should always be applied cold if it could come into contact with metals (exception: filter coffee machines). Do not mix with other cleaning agents. Only for use on intact, acid-resistant materials.

Instructions for use

Filter coffee machines: Fill 1–2 cups of durgol into the water tank and dilute it with the same amount of cold tap water. Run the solution through a complete cycle of your machine, then rinse with 1–2 tanks of tap water. Please consult manufacturer's instructions.

Metal, plastic or glass containers (e.g. Kettles, pots, vases): Depending on the degree of calcification present, fill the container up to the limescale line and leave for a maximum of 1 hour. Then rinse thoroughly with cold tap water. **Faucet aerators, shower heads, nozzles:** Place in a glass or plastic container filled with undiluted durgol. After approx. 10 minutes, rinse with cold tap water. **Fixtures and surfaces** (e.g. faucets, sinks, tile, shower walls): Clean with a cloth soaked in durgol. Immediately rinse with cold water and wipe dry.

Warning

Contains inorganic acid protective and auxiliary substances.

Causes skin irritation. Causes serious eye irritation.

Keep out of reach of children. IF ON SKIN: Wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
