

Trusted Woodcare Since 1879™

ORANGE OIL POLISH

Parker and Bailey products originated when Mr. Bailey, a respected furniture maker joined forces with Mr. Parker, a manufacturer of fine waxes and polishes. A small container of Parker's Perfect Polish was included with each furniture sale. Customers kept returning for more, which gave Parker the idea to join forces and package the products for everyone. So in 1879, Parker and Bailey began producing fine furniture care products in Maine. These basic, traditional formulas, tried and tested for over a hundred years, have a dedicated following among furniture restorers and antique experts alike.

Use Parker and Bailey's Orange Oil Polish to dust and polish furniture and woodwork throughout the home. It instantly turns your dust cloth into a powerful dust magnet leaving surfaces with a brilliant luster. The rich moisturizing oils help protect wood surfaces from sun fading, drying, and cracking while the natural power of orange oil gently lifts dirt and grime. Parker and Bailey use only the finest quality natural oils. This special orange oil blend provides first aid to older furniture surfaces by replacing lost oils in places where the finish may be worn. Generously apply to natural woodwork around windows to help prevent heat and sun damage.

DIRECTIONS: Remove seal under cap before use. Pour Orange Oil Polish onto a clean dry cloth and apply to surface.
Not suitable for French polished surfaces.

CAUTION: If medical advice is needed, have product container or label at hand. Keep out of reach of children. Avoid release to the environment. Dispose of contents and container in accordance with all local, regional, national and international regulations. In case of eye contact, rinse thoroughly with water.

Safety data sheet available for professional user on request.

CONTAINS: Orange, sweet, extract. Harmful to aquatic life with long lasting effects. Contains Orange, sweet, extract. May produce an allergic reaction.
