

- Removes limescale from all automatic, semi-auto and manual coffee makers and espresso machines (including capsule and pod machines).
- Non toxic and non corrosive.
- Up to 4 treatments (4 x 125ml).

Use:

- When the machine is cold, remove the water filter (where present).
- Add 125ml of descaler into the water tank and add 300ml of tap water. You may need to add more water for machines with an auto-descale function (refer to manufacturers instructions).
- For larger tanks, add an additional 50ml of descaler per 100ml of additional water until the minimum fill level is reached.
- Switch on and allow the solution to filter through.
- Switch off and pour away the used solution (caution this will be hot) and allow the machine to cool.
- Complete two further brewing cycles with tap water before making coffee.
- Always refer to the manufacturers guidelines before descaling.
- Store upright once opened.

LAKELAND

coffee maker descaler

Removes limescale from coffee
and espresso machines.

500ml
UP TO
4 DOSES

Caution

- Causes serious eye irritation.
