

# QUICK SHINE®

## DEEP CLEANER & WAX REMOVER

**QUICK SHINE® DEEP CLEANER** goes to work on ground-in dirt and old wax the moment it hits your floor because it was designed for use in hospitals, hotels and public buildings where speed and efficiency count. Unlike most cleaners, **QUICK SHINE® DEEP CLEANER** has no ammonia fumes and can remove wax, polymer and acrylic finishes.

**DIRECTIONS:** **1)** Dilute 1 cup/236 mL per gallon/3785 mL of **HOT** tap water or 1 bottle per 3 gallon/11356 mL pail for large areas. Increase amount of QUICK SHINE® DEEP CLEANER for tougher jobs. **2)** Pour solution on floor, distribute evenly across room with wet mop. Let sit for several minutes. **3)** Agitate or scrub until all finish is loosened. Pick up old wax and dirt with mop or sponge. **4)** Rinse floor with clear water. **5)** When floor is dry, we recommend finishing with QUICK SHINE® FLOOR FINISH for much longer wear and extra rich beauty. **ADDITIONAL USES:** Dilute 1/2 cup/118 mL QUICK SHINE® DEEP CLEANER per gallon/3785 mL of warm water for general cleaning. Wash with sponge or cloth and rinse with clear water. **Before using, test on a small hidden area. QUICK SHINE® DEEP CLEANER is not recommended for unsealed wood floors.**

**We welcome your comments.** Send to: Holloway House, Inc., 309 Business Park Drive, Fortville, IN 46090, USA, or call 001 (317) 485-4272. We also invite you to try HOLLOWAY HOUSE LEMON OIL for fine wood. Visit us on the web at [www.quickshine.net](http://www.quickshine.net)
