

# Odour Out

Odour Out goes to the source of the problem, using natural enzymes to break down the molecules that cause nasty smells and plant extracts to absorb unpleasant odours, rather than just masking them.

The non staining formula is ideal for use in the home on pet accidents, spilt milk, tobacco odours, teenage trainers, pongy pet beds etc.

**Directions:** Spray on affected areas and allow to dry naturally. Avoid over wetting, no need to rinse. Do not use in conjunction with acidic products.

**Warning**

L0074/2/B

**Cautions:** Causes serious eye irritation. Keep out of reach of children. Do not get in eyes, on skin, or on clothing. Wash hands thoroughly after handling.

IF IN EYES. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, seek medical attention.

Contains enzymes. Use in a well ventilated area and avoid breathing product spray. Prolonged skin contact may cause minor degreasing and irritation. Store in a cool dry place. Avoid freezing temperatures and temperatures above 45°C to preserve the enzymatic stability.

Spray away from the face. Avoid contact with the eyes and skin.

**500ml**
