

### IMPORTANT READ BEFORE USE

- Please adhere to all instructions in particular those referring to safety. • **Keep this container out of the reach from children and animals.** If spilled accidentally wipe up immediately with a damp cloth. • DO protect surfaces from any leakage. • DO inspect gloves and bag thoroughly before use. • DON'T leave the solution of treated surface unattended or where children or animals could come into contact with it. • DON'T place hot or sharp items in the bag with the solution. • It must not be used on aluminium, zinc, copper or painted surfaces. Refer to manufacturer guidelines, if in doubt - do not apply.

### DIRECTIONS FOR USE

- Wear the impermeable gloves supplied.
- Place racks into the bottom corner of the cleaning bag ensuring you do not puncture it in any way.
- Pour the gel into the bag with enough solution to enable the racks to have a complete coating when the bag is flat. Leave the rest to use with the other bag.
- Before sealing, get as much air as possible out of the bag then close the seal then fold over to make the smallest envelope to ensure all the racks are coated.
- Leave for 2 hours and turn over to recoat with the gel. When left, always leave in a safe place where the bag can't be interfered with.
- For stubborn debris and for best results, leave overnight.

### WASHING DOWN AFTER SOAKING

Remove racks from the cleaning bag rinse carefully with hot soapy water and then with hot water only, dry and return to oven or barbecue. The remaining gel and debris can be washed down the sink by using hot water whilst rinsing the bag at the same time.

Oven Mate and Just For Racks are registered trade marks of RDi International Ltd.
