YEAR FULL WARRANTY

Blending Cups & Bowls

for ASCENT™ SERIES

BLENDING CUPS & BOWLS FEATURES

AVAILABLE IN TWO SIZES: 600 ml cups and 255 ml bowls.

STARTER KITS include a blade base for blending. Accessory kits offer additional containers without a blade base.

SELF-DETECT™ TECHNOLOGY allows Ascent™ Series Blenders to recognise the container size and adjust blend settings accordingly.

USE BLENDING CUPS & BOWLS to chop ingredients for any meal and make individual servings of smoothies, dips, dressings, baby food and more.

ATTACH A SPILL-PROOF LID to immediately serve, store, or take blends to go—and avoid extra dirty dishes.

DURABLE MATERIAL is made of BPA-free Eastman Tritan™. All containers, lids and blade bases are dishwasher safe—top or bottom rack.

LASER-CUT BLADES are crafted from the same hardened stainless steel as Vitamix full-size containers, delivering better blends and longer life.

3-YEAR FULL WARRANTY covers parts, labour and return shipping.

**These blending containers are not microwave safe and should not be used to blend hot liquids.*

**Available in 2018*

FAQ

1. **What's different about Ascent™ Series blenders vs. older Vitamix® machines?**

New Ascent Series blenders feature:

- SELF-DETECT TECHNOLOGY automatically adjusts programme settings and maximum blending times according to container size.
- Interlock technology that prevents the machine from operating if the container or lid is not properly secure.
- Built-in timers to help you consistently achieve the perfect texture every time.
- Sleek new design that looks great from all angles.
- Dishwasher-safe containers with clear lids.
- 10-year warranty guarantees worry-free blending for at least a decade.

2. **Will my old Vitamix containers work with my new Ascent™ Series machine?**

No, Ascent™ Series blenders are only compatible with containers that include Self-Detect technology.

3. **Can I still use my old Vitamix recipe books with the new machine?**

While ingredient quantities and blend times may need adjusting, all Vitamix recipes can be adapted to Ascent Series machines.

Continued on back.

FAQ

4. What are the differences between Ascent Series models?

- All Ascent Series machines feature Variable Speed Control, Pulse, SELF-DETECT and Interlock technologies and a built-in timer.
- The A2500i offers 3 programme settings.
- The A3500i offers 5 programme settings, a touchscreen control panel and a programmable timer.

5. Where are Vitamix Ascent Series blenders made?

Vitamix Ascent Series blenders are designed, engineered and assembled near Cleveland, Ohio, USA. Some of our components are sourced outside the USA. Vitamix has been family-owned and headquartered in America since 1921.

6. How are the Ascent Series containers different?

Ascent Series machines feature containers with Self-Detect technology and built-in wireless connectivity, enabling the machine base to recognise automatically a variety of innovative attachments to come in the future.

Unique interlock technology prevents the machine from operating if the container and lid are not properly secured. All Ascent Series machines come with a low-profile 2-litre container that fits below most overhead cabinets.

Containers are self-cleaning and dishwasher safe and made of BPA-free Eastman Tritan copolyester.

Why Vitamix?

VERSATILITY

HOT SOUP:

Make hot soup right in the container, using the friction of the blades

DIPS + SPREADS:

Grind the toughest ingredients into silky-smooth purees and dips

DOUGH:

Simulate kneading and grind nuts and whole grains into flour

FROZEN DESSERT:

Turn frozen ingredients into sorbet or ice cream in seconds

EASY TO CLEAN:

Every Vitamix machine self-cleans in 60 seconds or less—no disassembly required

PASSION

PREFERRED BY CHEFS:

Vitamix is trusted by chefs throughout the world
