PROGEL - SAPPHIRE

Progel® is a highly concentrated, bake stable food colouring. Progel® can be used to colour decorations e.g. sugarpaste, frosting or marzipan. Progel® keeps its vibrancy once baked making it the ideal choice for colouring cake batter.

Mix a small amount into your chosen application until desired shade of colour is achieved.

INGREDIENTS: Humectant: E422, Water, Colours: E133, *E122, Modified starch (tapioca).
WARNING: *E122 may have an adverse effect on activity and attention in children.

RECOMMENDED DOSAGE: 3g of colour per 1kg of decoration (max. dosage 5g) & max. 2g of colour per 1kg of cake. BEST BEFORE: See end of tube. Store at ambient room temperature.
