Instructions
for use

Instructions for use

Always refer to manufacturer's instructions.

1. For perfect results, pour 50 ml of milk system cleaner (i.e. 2 measuring cups) into the milk container and fill it with 450 ml of water.
2. Start the cleaning process as described in the machine's operating instructions.
3. Rinse the machine thoroughly with clear water as described in the operating instructions.
4. For optimal results place all components that come into contact with milk in the used cleaning solution.

External milk frothers: pour 50 ml of milk system cleaner (i.e. 2 measuring cups) into the milk frother and fill it with water. Allow to work for 15 minutes. Rinse thoroughly with water.

Your machine is now hygienically clean and ready for use!

IMPORTANT: This product is not intended for use as a descaler. We recommend durgol swiss espresso, available separately.
