## How to make your Gingerbread Ornaments:

### To make the Icing:

1. Whip the egg white until it begins to stiffen and stir in the package of sugar.
2. Add a few drops of lemon juice (or white vinegar) to make the icing stickier.

### To decorate your Gingerbread Ornaments:

1. Fill the piping bag with icing and snip a hole near the tip for a fine line. To create larger detailing snip more off the piping bag. Decorate as you like with icing and decoration.
2. Leave to dry and then attach the string through the hole. Place on you tree and enjoy.
