IMPORTANT SAFEGUARDS
When using electrical appliances, basic safety precautions should always be followed including the following:

SAVE THESE INSTRUCTIONS

- Read all instructions before operating the Magic Bullet.
- Do not immerse the cord, plug or base in water or other liquids.
- Do not pull, twist or mistreat the power cord.
- Avoid contact with moving parts.
- The use of attachments or parts not recommended or sold by the manufacturer may cause fire, electric shock or injury and void any applicable warranty.

- Do not use this product with any type of adaptor or voltage converter device.
- Use of adapters and converters is considered an unauthorized modification of the product and as such voids the warranty. Use of this product in locations with different electrical specifications may result in damage to the product.
- Unplug the NutriBullet when it is not in use. Make sure the machine is unplugged before assembling, disassembling, adding additional parts, and cleaning.

- Keep hands and utensils away from the cutting blade while chopping or blending food to reduce the risk of severe injury to person or damage to the blender/chopper. A scraper may be used, but only when the blender/food chopper is not running.
- Never keep the blade running for more than one minute at a time, as it can cause permanent damage to the motor. If the motor stops working, unplug the Power Base and let it cool for a few hours before attempting to use it again. Your Magic Bullet has an internal thermal breaker that shuts off the unit when it overheats. Letting the thermal breaker cool down should allow the Power Base to reset.
- Do not operate any appliance with a damaged cord or plug or if the appliance malfunctions, or is dropped or damaged in any manner. Contact Customer Service for assistance in obtaining a replacement.
- Unplug the Magic Bullet when it is not in use, before putting on or taking off parts, and before cleaning or assembling.
- Always use your Magic Bullet on a clean, flat, hard, dry surface.
- Always completely assemble the blade and cup before placing on the Power Base.
- Do not allow the cord to hang over the side of the counter or table.
- Do not allow cord to touch hot surfaces, including stove.
- Never leave the Magic Bullet unattended while it is in use.
- Never blend carbonated beverages. Released gases can cause pressure to build up and the container to burst, resulting in possible injury.
- Make sure the blade base is securely screwed onto the Short Cup or Batchbowl before placing it on the Power Base.
- Never run the Magic Bullet without food or liquid contents in any of the Cups or Blender Attachment.

SAVE THESE INSTRUCTIONS
HOUSEHOLD USE ONLY

- Close supervision is necessary when any appliances are used by or near children.
- To reduce the risk of injury, never place the cutting blade on the Power Base without putting cup or Party Mug properly in place.
- Be certain that blade is completely and firmly screwed on to the cups, Party Mugs, or blender container before operating appliance.
- Do not use Magic Bullet in the rain or in wet conditions.
- Do not use outdoors if exposed to inclement weather elements.
- Blades are sharp. Handle carefully.
- Do not attempt to defeat the cover interlock mechanism.
- Check gasket to make sure it is not damaged and it is completely seated in the cross blade or flat blade unit before each use.
- Do not use appliance for other than intended use.
- Never remove cup/blade assembly from the power base until the motor comes to a complete stop. Removing the cup/blade assembly while power base is still running may cause damage the blade coupling or motor gear.
- To stop the motor, twist to release the cup if in lock mode and stop pressing cup/blade assembly down if in pulse mode and wait for motor to power down completely.

- Do not put the blades in the dishwasher. Simply hand wash with warm soapy water.
- The Magic Bullet cups can be washed on the top rack of the dishwasher using the normal (not sanitize) cycle. The Magic Bullet cups and blades should not be sterilized in boiling water for any reason as this will warp the plastic.
- When washing blades, do not attempt to remove the gasket ring. Simply hand wash the blades in warm soapy water. Attempted removal of the gasket may permanently damage the blade configuration and cause leakage.
The Magic Bullet has gone BPA Free! All of the recipes that require cooking in the Magic Bullet vessels have been updated to reflect our new BPA free instructions. Because every microwave is different, we now recommend microwaving foods for a maximum of 2-3 minutes, then checking the temperature of the food and continue heating only if the contents of the vessel are not hot enough.

- Never heat foods for longer than 2 minutes consecutively. Heat for 2 minutes. Let the food sit for 2 minutes, then heat for 2 minutes again.
- Never microwave with the blade or solid lid still attached. Remove the blade or solid lid and twist on a Shaker/Steamer top.
- When microwaving, beware of steam and use an oven mitt to remove hot cups or containers from the microwave.
- Do not use Party Mugs in the microwave.
- Do not use the Blender Container or lids in the microwave.
- Follow the precautions and recommendations found in your microwave oven instruction manuals, specifically the heating times.
- Do not use excessive amounts of time when heating water or liquids in the microwave.
- Do not over cook food. Carefully attend to appliance when the Magic Bullet Cups are placed inside the microwave while cooking.
- Some products, such as whole eggs, may explode and should not be heated using the Magic Bullet cups in the microwave.

**Superheated Water** – Liquids such as water, coffee, tea or soups are able to be overheated beyond the boiling point without appearing to be boiling. Visible bubbling or boiling when the container is removed from the microwave is not always present. **This could result in very hot liquids suddenly boiling over when the container is disturbed or a spoon or other utensil (such as a Magic Bullet blade) is inserted into the liquid.** To reduce the risk of injury to persons:

- Do not overheat the liquid.
- Stir the liquid both before and halfway through heating it to avoid eruption.
- Do not microwave containers with a solid lid. Always use the Shaker/Steamer lid or microwave with no lid.
- After heating, allow the container to stand in the microwave for a short time before removing container.
- Use extreme care when inserting a spoon or other utensils into the container.
- Avoid heating baby food or formula in Magic Bullet cups, even with the lid off.
- Don’t defrost frozen beverages in Magic Bullet cups (especially carbonated beverages). Even if the container is opened, pressure can build up. This can cause the container to burst, possibly resulting in injury.
- Hot foods and steam can cause burns. Be careful when opening the Magic Bullet cups when they contain hot microwave foods and liquids.
- To prevent possible injury, always use protective oven gloves and direct steam away from hands and face.

Congratulations on your purchase of the Magic Bullet, the personal, versatile countertop magician that works like magic. As you’ve no doubt noticed, the Magic Bullet is not your ordinary kitchen appliance. In fact, it’s an entirely new concept in labor-saving devices. Unlike bulky blenders and unwieldy food processors that most of us only pull out of storage for specific recipes and special occasions, the Magic Bullet is so handy, so versatile and easy to use that you’ll put it to work EVERY single day (probably several times a day). Best of all, it saves you time because it does almost any job in the kitchen in 10 seconds or less!

Chopping, mixing and blending are all tedious, time-consuming kitchen tasks that can really take the joy out of cooking, especially for those who are pressed for time. But with the Magic Bullet you can chop, mix, blend, whip, grind and more — all in just seconds — for the fastest, tastiest meals ever. Imagine, everything from chopped onions and minced garlic to light and creamy cheesecake, all prepared in just 10 seconds or less! And that’s just the beginning. The Magic Bullet cups are microwave safe, which means you can actually cook in them. Afterward, simply pop on one of the stay-fresh resealable lids to keep leftovers fresh and flavorful for days. Just think … no knives, cutting boards, or pots and pans to clean; no plastic wrap, foil or plastic storage containers to mess with. The Magic Bullet does it all. And because your Magic Bullet cups, Party Mugs and lids go right in the dishwasher, cleanup is a breeze. So you save even more time!

Because the Magic Bullet is intended for everyday use, it has been designed to be compact so that it easily fits on any countertop, always right where you need it.

We sincerely hope you enjoy using your Magic Bullet as much as we do. We’re confident that it will soon become your favorite kitchen helper … one that you will use every day!
For your convenience we’ve created a series of icons to make it easy to find the appropriate recipe and blade attachment.

Before using your Magic Bullet for the first time, rinse all of the pieces, except for the **Power Base**, in warm soapy water. Rinse and dry well.
Magic Bullet Assembly

**Tall Cup and Short Cup**
These cups are used to mix, cook and store your ingredients. They are dishwasher-safe (top rack only) and microwave-safe.

**Four Party Mugs with Comfort Lip Rings**
These Party Mugs* turn your Magic Bullet into the Ultimate Party Machine. You can make and serve frozen party drinks right in the same mug. They even come with colored Comfort Lip Rings to cover the threads and let you know whose drink is whose.

*The Party Mugs are not microwave safe.

**Power Base**
The Power Base is the heart of the Magic Bullet. Simply place one of the Bullet Cups or Party Mugs onto the High-Torque Power Base and press. Nothing could be easier.

Caution: Do not submerge the Power Base in water and always unplug the Power Base before cleaning it. Do not put the blade with the gasket in the dishwasher.

**Cross Blade and Flat Blade**
The Magic Bullet comes with two blades: a Cross Blade for chopping, grating and blending foods such as onions, cheeses, meats and frozen drinks, and a Flat Blade for whipping cream and grinding hard foods like coffee beans and spices.

Do not put the blades in the dishwasher. Simply hand wash with warm soapy water. In the base of the blades, there is a plastic gasket that creates an airtight fit with the Magic Bullet cups. When washing the blades, do not attempt to remove the gasket ring. Attempted removal of the gasket may permanently damage the blade configuration and cause leakage.

Magic Bullet Assembly

**Shaker/Steamer Tops**
Your Magic Bullet comes with two handy Shaker/Steamer Tops that are used for steaming foods in the microwave, or as shaker tops. The Shaker/Steamer Top with the large holes is for coarse ingredients such as Parmesan cheese, the other is for finely ground spices such as cinnamon or nutmeg.

**Stay-Fresh Re-sealable Lids**
With the Magic Bullet — your personal, versatile, countertop magician — you can prep, cook and store your food in the very same vessel. No plastic wrap or storage containers are needed to keep your leftovers fresh. Your Magic Bullet comes with two Stay-fresh Re-sealable Lids that fit right on to the Short and Tall Cups, and Party Mugs to keep your leftovers fresh for days.

*Only use the Shaker/Steamer Tops to heat food in the microwave.

If in time a gasket becomes loose or damaged, please contact customer service for a replacement Magic Bullet blade holder at: 1-888-624-9682.
Using Your Magic Bullet

Using the Magic Bullet
Using the Magic Bullet is as easy as 1, 2, 3 …

1. Load the ingredients into the Short Cup, Tall Cup, or Party Mug.

2. Twist on the Cross, or Flat Blade until the blade and cup have a tight seal.

3. Line up the tabs, place the bullet on the Power Base and press down on the cup to turn it on.

Here’s how it works: As long as you’re holding it down, the Magic Bullet is on. When you want the blades to stop, simply let go.

“Lock On” mode: For hands-free operation, press down and gently turn the cup clockwise until the tabs lock under the lip of the Power Base. Once you are in Lock On mode, the motor runs continually. To turn it off, simply twist the cup back counter-clockwise and release the cup.

Choosing the Right Blade

The Magic Bullet comes with two blades:

Cross Blade

The Magic Bullet Cross Blade is used for:

Chopping — Foods like onions, garlic and carrots, and for making dips such as salsa, bean dip, or gazpacho.

Blending — The Cross Blade pulverizes ice for smoothies, frozen cocktails and milkshakes.

Mixing — Batters for pancakes, muffins and quick breads are mixed in seconds.

Grating — Foods like hard and soft cheeses and chocolate are grated in just seconds.

Puréeing — Dishes such as hummus, all-natural soups, and baby food are creamy smooth in seconds.

Shaving Ice and Frozen Fruits — For tasty treats such as snow cones or fruit sorbets.

Grinding Meats — Delicious chicken and ham salads or pâtés in seconds.

Caution

If the blade stops in Lock On mode, unplug the Magic Bullet immediately. Sometimes, especially when the motor is coming up to speed, a hard ingredient, such as a carrot chunk, can get stuck in the blade and stop it from turning. If the blade stops, UNPLUG THE MAGIC BULLET IMMEDIATELY. Take the blade/cup assembly off and give the ingredients a good shake to unblock the blade. If the blade still seems obstructed, twist off the blade and carefully (it’s sharp) spin the blade manually. Once the blade will spin, plug the Magic Bullet back in and try again — you should be good to go.

Never run the Magic Bullet for more than one minute at a time, as it can cause permanent damage to the motor. If the motor stops working, unplug the Power Base and let it cool for a few hours before attempting to use it again. Your Magic Bullet has an internal thermal breaker that shuts the unit off when it overheats. Letting the thermal breaker cool down should allow it to reset.

Before using the blade, check the gasket to make sure it is not damaged and it is completely seated in the blade unit before each use.

Never put your hands or utensils near the moving blades and never use your hands or utensils to press the activator buttons down while the Power Base is plugged in.

*Only use the Shaker/Steamer Tops to heat food in the microwave.
Magic Bullet Techniques

Flat Blade
The straight Flat Blade is used for:

Grinding and Chopping harder, single ingredient items such as:
- coffee beans
- nuts
- cinnamon sticks
- dried fruit

Or Whipping foods such as:
- homemade whipped cream
- cream cheese schmears
- butter

THE SECRET: The trick to successful Pulsing is to make sure that the machine doesn’t accidentally slip into Lock On mode. To avoid this, simply use your other hand to apply counter-clockwise pressure on the cup as you Pulse.

To start … hold the cup at the base and apply counter-clockwise pressure to it to keep it from locking on.
Then … with your other hand, tap the top of the cup and immediately release. Continue Pulsing until you get the consistency you want.

The “Shake” Technique
Sometimes, when you are working with thicker ingredients, like those in chicken salad (Page 63) or marinara sauce (Page 67), the density of the mixture can make it hard for the ingredients toward the top of the cup to make it down to the blade. If some of your ingredients are having a hard time making it down to the blade, simply use this Shake technique.

The “Cocktail” Shake: When making smoothies, dips or other recipes…

Remove the Cup/Blade assembly from the Power Base … pick it up and shake it like a cocktail shaker. Then put it back on the Power Base.
Repeat … if necessary until you achieve the consistency you want.

The “Shakin’ Pulse”: When you need to shake ingredients that you want coarsely chopped, like salsa or meat salads, you are going to want to use the Shakin’ Pulse technique.

Magic Bullet Techniques

The “Pulse” Technique
Because the Magic Bullet’s motor is so powerful, if you aren’t careful you can quickly overprocess food and turn it into mush. That is why when you want to make foods such as chunky salsa, or coarse chopped onions, the Pulse technique is key. Pulsing takes a tiny bit of getting used to, but once you get a feel for it, you’ll be a Pro in no time!

To Pulse you simply press down on the cup very quickly and immediately release. For foods that you want coarsely chopped, a quick tap on the top of the cup is all you need. Then let the blades come to a complete stop and tap again until you get the consistency you desire.
**Magic Bullet Techniques**

First ... Make sure the hand holding the cup is applying counter-clockwise pressure to keep it from locking on.

Then ... Give the Bullet a strong downward shake to throw the ingredients into the blade, and **Pulse** at the bottom of the shake.

Repeat ... until you get the right consistency.

---

**The “Tap” Technique**

If you have a problem with sticky ingredients clinging to the side of the cup instead of being recirculated into the cutting zone ... 

First ... Take the cup off the **Power Base** and Tap the cup and blade assembly on the counter to force the ingredients down into the blades.

Then ... Replace the cup and blade assembly to the **Power Base** and finish processing.

---

**Chopping Onions and Garlic**

With the Magic Bullet, chopping onions and mincing garlic is effortless. No more tears, no more stinky hands and no more knife and cutting board ... you are literally seconds away from chopped, minced, even pureed onions and garlic.

First ... prep the onions or garlic by removing any skin and making sure the pieces will fit into the Magic Bullet cup.

Next ... Place the whole onions, onion pieces, or garlic into the **Short Cup** and twist on the **Cross Blade**.

Then ... Give it several very quick **Pulses**. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from locking on (see the Pulse technique on Page 16). With the other hand, give it a quick tap and release as soon as you hear the motor start. For coarser onion or garlic chunks, **Pulse** only a few times. For a minced consistency, **Pulse** five or six times. And for a smooth puree, just keep **Pulsing**, or **Lock On** (see Page 17) until you’ve achieved a smooth, thin consistency.

Notes ... When chopping onions and garlic, you may find the **Tap Technique** (Page 18) helpful.
Smoothies

The Magic Bullet is perfect for creating delicious, satisfying, frosty smoothies and protein drinks. The best part is that you blend your ingredients and drink your smoothie out of the very same dishwasher-friendly cup ... no mess! Plus, the power of the Magic Bullet pulverizes ice in a way few blenders ever will.

**First** ... Add your favorite smoothie ingredients and ice into the **Tall Cup**, or **Party Mug**, and twist on the **Cross Blade**. (See recipes on Page 86.)

**Then** ... Place the cup onto the **Power Base**, push down on the cup and twist clockwise until the tabs of the cup fit under the lip of the **Power Base** and the motor is running consistently (Lock On mode).

**Keep blending** ... until you achieve a smooth consistency. The thickness of the drink will depend on the ingredients you use. You'll usually be able to hear when it's done. When all the ice is crushed, the grinding sound will stop and you'll hear a nice even whirring sound.

If your smoothie is so thick that the ice or fruit is having a hard time reaching the blade, add more liquid and continue blending.

**Experiment with different smoothie ingredients.** Smoothies are all about throwing whatever fruits, juices, yogurts, or whatever you have around the house, into a cup and giving it a whirl. Feel free to experiment with different ingredients.

Frozen Drinks

When it's frozen drink time your Magic Bullet is, hands down, the Ultimate Party Machine! Because the drinks are so quick and easy to make, everyone can have their favorite frozen cocktail. Plus, you can make the drinks right in the **Party Mugs**, then twist on your favorite-color **Comfort Lip Ring**, so everyone knows whose drink is whose. Partying has never been easier — or more fun!

**First** ... Add ice to the **Party Mug** (or **Tall Cup**).

**Next** ... add your favorite ingredients (see page 43 for some of our favorites) and twist on the **Cross Blade**.

**Then** ... Place the cup onto the **Power Base**, push down on the cup, twist to Lock On mode and blend until smooth.

**Be Responsible** ... Everyone at Homeland Housewares encourages you to have a great time, but please do so responsibly. Do not drink and drive, and please be careful when you are consuming alcohol.

If your drink is so thick that the ice or fruit is having a hard time reaching the blade, add more liquid and continue blending.

Grinding Coffee

There is nothing better than a steaming cup of java made with freshly ground beans. Unfortunately, most bean-grinders are inconvenient and inevitably make a big mess on the countertop. Finally, with the Magic Bullet, grinding coffee is a breeze because you twist the blade off from the top, and the coffee is in the bottom of the cup. That means you don’t have to go through that whole flipping-the-cup-over-to-get-the-coffee-out ordeal that you do with the typical bean-grinders. Plus, because all the Magic Bullet parts are washable, you can wash away the flavored coffee tastes. Never again will your French Roast taste like French Vanilla!
First … Add coffee beans to the Short Cup and twist on the Flat Blade.
Next … Place the cup onto the Power Base.
Now … Pulse a few times, or Lock On, until the beans are ground to the desired texture.
Remember … the finer the grind, the stronger the coffee. If you want a milder brew, stop Pulsing when the beans have the texture of coarse sand. If you’re going for an espresso-like jolt, keep grinding until the beans become a fine powder.

Check out Page 77 for some of our favorite coffee recipes.

Mixing Batters and Breads

Finally, there’s a way to make baked goods without all the stirring, whisking and chopping! The Magic Bullet makes the preparation and cleanup of baked goods a piece of cake. Pancakes, muffins, breads and more have never been faster — or fluffier! What we like to do is start with instant batter mixes and then make them fancy by adding tasty ingredients like nuts, cinnamon or apple to the batter. Since it’s so quick, everyone can have the add-ins they like.

First … Add the ingredients into the Magic Bullet Tall Cup.
Then … Blend the ingredients until smooth.
When using add-ins … The power of the Magic Bullet will mince add-ins into tiny little pieces — which is great for flavor, but you may want bigger, chunkier pieces as well. For example, when making blueberry muffins, we recommend that you add about half of the blueberries you intend to use in with the batter to be blended, then add the other half after the batter is blended. Just twist off the blade, add the whole berries, twist the blade back on and Shake cocktail shaker style a few times.

That way you get fantastic blueberry flavor mixed right in with the batter, and delicious whole blueberries throughout the muffins for wonderful texture. You can use this technique with nuts, raisins, chocolate chips, whatever you desire.

Chopping Fresh Herbs

Finally, an effortless way to get all of the zesty, pungent flavor of fresh chopped herbs, without spending an hour at the cutting board. Now, in just seconds, you can make any meal taste like it was prepared by a gourmet chef.

First … Add several sprigs of your favorite herb to the Short Cup.
Then … Twist on the Cross Blade and give it several quick Pulses. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from Locking On (see the Pulse technique on Page 16.)

Adding a pinch of fresh dill, parsley, chives, or basil over soups, mashed potatoes, salads — literally any dish you can think of — adds such zing to the flavor of the dish and just enough “chichi-ness” to make your family and guests feel like you’ve pulled out all the stops.
Grinding Spices

Now it’s easy to spice up your life ... just use your Magic Bullet. No pre-ground spice can hold a candle to a freshly ground blend; you have no idea what you’ve been missing. In seconds you can have pancakes sprinkled with fresh cinnamon, or eggnog with a pinch of fresh, zesty nutmeg ... the possibilities are endless, mouth-watering and effortless. And with the ingenious Shaker Tops, you can serve right to the table. Bon appetit!

First ... Add your favorite fresh spice to the Short Cup.
Next ... Twist on the Flat Blade and grind until you’ve created a slightly textured powder.
Then ... Twist on the Shaker/Steamer Top with the two sets of small holes and sprinkle to your heart’s content.

Seasoned Butters. With almost no effort you can look like a culinary school graduate ... by whipping up a few seasoned butters. Just add chives, garlic, honey, mustard seed, whatever you like, to slightly softened butter and whip in your Short Cup with the Flat Blade. You’ll create a spread that will make everyday bread and butter a five-star experience. Add a pat to the top of cooked fish, chicken or into soups ... brilliance!

Grating Cheeses

Chopping cheese is a time-consuming process, and pre-shredded cheese can be expensive. Now, with your Magic Bullet, you can effortlessly cut up cheese in less time than it takes to find your cheese grater. You can even twist a handy Shaker/Steamer Top onto the Magic Bullet cup and turn your Magic Bullet cup into a cheese shaker!

First ... Add your favorite cheese to the Short Cup.
Next ... Twist on the Cross Blade and grind until you’ve created a coarsely textured powder.
Then ... Twist on the large-holed Shaker/Steamer Top.

Whipping Cream

Light, fluffy, delicious whipped cream used to require a bowl, a whisk and a heck of a lot of elbow grease. Now with the Magic Bullet, it’s never been easier, or faster, to create mountains of cloudlike whipped cream.

First ... Add heavy cream to the Short Cup.
Then ... Twist on the Flat Blade and whip until smooth. You’ll hear it when it’s done; the sound of the motor will change to a hum.

See the Magic Bullet coffee drinks section on Page 77 for a number of tantalizing coffee recipes that use whipped cream, or take a look at the dessert section on Page 72.

Grinding Meats

Until now, grinding meat required special equipment and a lot of effort. Now, with the Magic Bullet, you can grind meat for fresh sirloin burgers, meat sauces and party pat’es right in your Magic Bullet ... in just 10 seconds or less.

First ... Add the meat to the Tall Cup and twist on the Cross Blade.
Then ... Pulse (Page 16) until you get the consistency you want. Since meat is very dense, you may need to use the Tap technique (Page 18) to make sure every bit gets ground.

Deviled Ham. Check out the Deviled Ham recipe on Page 66 for a scrumptious ground meat recipe.

Cooking in the Magic Bullet Cups

Unlike conventional blenders or food processors, the Magic Bullet’s job isn’t done once the ingredients are blended. Once you’ve prepared your food, your Magic Bullet is then ready to cook it as well! Just remove the blade, twist on a Shaker/Steamer Top and place the cup in the microwave. Seconds later, you’ll have steaming hot soups, rich and hearty pasta sauces or delicious melted cheeses, perfect for pouring over tortillas or vegetables, all without dirtying a dish, and with no pots and pans to clean!

First … Blend or Pulse your ingredients together.
Then … Remove the blade, twist on a Shaker/Steamer Top (do not put the blades in the microwave) and place the cup in the microwave. Cook until ready, then … Remove with an oven mitt and serve.

Storing Leftovers in the Magic Bullet Cups

At Homeland Housewares, we understand that your time is valuable; that is why we’ve made Stay-Fresh Re-sealable Lids that twist right onto the Magic Bullet cups. Now you can prepare, cook and store your food all in the same vessel! No unnecessary dishes to clean, no plastic wrap, foil or plastic containers to deal with … just twist on a stay-fresh lid and pop your leftovers in the refrigerator. You can even bring your leftovers to work or school, by just tossing the sealed cup into your bag and go! Then at work, you can reheat your leftovers in the microwave — all in the same cup!

Cleaning the Magic Bullet

Everyone hates cleaning up, which is just one more reason the Magic Bullet is so great. You can make and cook fresh homemade spaghetti meat sauce (see recipe on Page 67) from scratch and only use one tall Bullet cup! Imagine delicious, piping hot pasta sauces, salsa, fresh soups and more, all prepared with no cutting boards, no pots and pans, just a single cup and blade to put in the dishwasher. It doesn’t get any easier than that.

Always unplug the Magic Bullet when cleaning or assembling.

Washing Magic Bullet Attachments

It is so easy … Just place any of the pieces (except for the Power Base) on top shelf of the dishwasher, or hand wash with warm soapy water and rinse.

Do not put the blades in the dishwasher as the heat from some dishwashers can cause the gaskets to deteriorate or come loose.

Stubborn cleanup

When you let ingredients dry in the Magic Bullet, or when you’ve melted cheese in the cups, make your cleanup a snap by filling the cup with soapy water and microwaving it for one minute. That will loosen the stuck ingredients and with a light scrub, you’ll be all done.
Easy Clean Up

Cleaning the Magic Bullet Power Base

For the most part the Power Base doesn’t really get dirty, but if you neglect to twist the blade onto the cup tightly, liquids can leak out and get into the base and activator buttons. Here’s how to clean it up.

**Before you begin …** The most important thing is to UNPLUG the Power Base!

**Then …** Use a damp rag to wipe down the inside and outside of the Power Base.

**Sometimes the base gets so dirty …** that the little white sliders that activate the Magic Bullet get sticky. This can cause the motor to continue to spin even after you’ve released the cup. When this happens, start by UNPLUGGING the Power Base.

**Then …** Double-check that you’ve UNPLUGGED the Power Base, and use a damp rag to soften up the gunk around the activators as you work the activator buttons up and down until they move freely again.

**Caution** NEVER SUBMERGE THE POWER BASE IN WATER OR PLACE IT IN DISHWASHER

Never put your hands or utensils near the moving blade and never use your hands or utensils to press the activator buttons down while the Power Base is plugged in.

10 Second Recipes

Our team at Homeland Housewares has had the pleasure of personally testing every single recipe suggestion in this cookbook. Out of the thousands of delicious delicacies you can prepare in the Magic Bullet, we’ve chosen our favorite “10 seconds or less” recipes to share with you. We’ve added our notes, serving suggestions and tips so you can get the most out of each recipe.

The Magic Bullet is all about creating delicious meals, drinks and snacks in 10 seconds or less, with virtually no clean up. During our recipe creation and selection process, we discovered certain ingredients made the 10 second recipes even easier, faster and neater. Here they are:

**Boiler Onions**
Boiler onions are flavorful little onions that are about an inch to an inch and a half in diameter. You can find them in the produce section of most grocery stores. They are perfect for the Magic Bullet because you can throw them in whole, no cutting board, no knife … just toss them in the Magic Bullet cup and you’re ready to go. One boiler onion (they range in size) is the equivalent of about 1/4 cup of onion.

**Pre-peeled Garlic In Jars**
Some genius decided to pre-peel garlic and sell it in jars. You can find this pre-peeled garlic in the produce section of most grocery stores. When a recipe calls for a clove or two of garlic, just open up the jar and toss them in the cup. All the flavor, without all the work…it doesn’t get any easier!

**Cherry Tomatoes**
Cherry tomatoes are not only perfectly sized to throw right into the Bullet Cups, they are extremely flavorful. Our recipes are based on the cherry tomatoes that are about an inch in diameter. On average about 4-6 cherry tomatoes equals a 1/4 cup of tomato.
Baby Carrots
Cutting and peeling carrots is tough work. We highly recommend using the pre-peeled, baby size carrots that are available in the produce section of most grocery stores. These tiny carrots are sweet, tasty and perfectly sized for the Magic Bullet cups.

And remember, to make things as easy as possible for you, we’ve created a series of icons so, in a glance, you can learn about a recipe. The key of icons used in this book can be found on page 10.

For your convenience, we’ve also created an index that categorizes the recipes by Fat-Free, Kid-Friendly and more. The index can be found on Page 88.

We want you to try the recipes in this cookbook because, well, we’ve devoured every one of them and know how good they are! We also want to make sure you understand that with The Magic Bullet, the possibilities are endless. Because everything is so quick and easy to make, it’s the perfect device for experimenting.

Don’t hesitate to add or omit ingredients and if you want to vary a recipe, or totally rework it … go for it. We encourage that type of Magic Bullet bravery. Go ahead and create your very own Magic Bullet masterpieces.

Seven-Second Salsa
No party is complete without salsa! This chunky, delicious blend is a flavor fiesta. Your guests will be talking about it for weeks to come!

1-2 boiler onions or 1/4 of a regular sized onion (about 1/4 cup)
1/6 to 1/4 of a jalapeno pepper
8-10 cherry tomatoes or 1 regular size tomato (about 1/2 cup)
1-2 cloves garlic
small sprigs of cilantro (optional)
salt and pepper to taste

First … Place all ingredients, in the order they are listed, into the Tall Cup. (You may have to cut the tomatoes a bit, depending on the size you choose.)
Then … Twist on the Cross Blade and place the cup onto the Power Base.
Next … Give it several quick Pulses. Salsa should be chunky, so be careful not to over-process it. Remember to apply a bit of counter-clockwise pressure to the cup to keep it from Locking On (See Pulse technique on Page 16).
Repeat the quick Pulse technique … until you achieve a blended yet chunky texture.

Why spend a fortune on mediocre store-bought dips when you can make your own tantalizing party spreads in less than 10 seconds, and for a fraction of the price. Each of these dips has been selected for flavor, popularity and ease. Go ahead and call some friends, it’s time to throw a Bullet Bash!
When you pour your fresh salsa in a bowl, you may notice the power of the Magic Bullet has made it a little foamy. Don’t panic — the foam is actually tiny air bubbles that go away after a few minutes. If it bothers you, lay a paper towel down on top of the salsa and gently blot … no more foam. Also, when you make salsa with a knife, you typically seed the tomatoes first. Since we’re throwing the tomatoes in whole, there may be more juice than you’re used to. If so, just twist on the Shaker/Steamer Top and strain out some of the extra liquid.

Serve your salsa with tortilla chips, slices of Italian bread, or as a dip for triangles of quesadilla (see recipe Page 45).

**Chunkier Salsa**

For even chunkier salsa, after you’re done Pulsing, stir in some canned (drained) black beans and a bit of canned corn — a fiesta for the taste buds!

**Hallelujah Hummus**

We love hummus because it’s so rich and creamy! This traditional Greek delicacy can be served as a dip or a side dish.

1/4 cup chicken (or vegetable) stock  
14 oz. can chickpeas (garbanzo beans), drained  
3 cloves garlic  
2 Tbs. lemon juice  
3 Tbs. tahini (sesame paste)

**Fat-Free Hummus**

Dig in and enjoy this delicious hummus without worrying about your waistline!

- splash of fat-free chicken (or vegetable) broth  
- 1 drained 14 oz. can chickpeas (garbanzo beans)  
- 2 Tbs. lemon juice  
- 2 cloves garlic  
- sprinkle of paprika  
- salt and pepper to taste

**Before-You-Know-It Bean Dip**

Not all bean dip comes out of that creepy little can. You can make hearty, delicious, all-natural bean dip in seconds.

1 (15 oz.) can black beans, drained  
1/4 of a medium-sized onion (about 1/4 cup)  
1-2 cloves garlic  
1/4 cup roasted red peppers (jarred)  
1/4 cup (fat-free) chicken or vegetable broth  
2 Tbs. balsamic vinegar

(continued on next page)
**Party Dips**

- dollop of sour cream (optional)
- cayenne pepper to taste (optional)

**First** … Drain most of the liquid out of the canned beans.

**Then** … Load all the ingredients, in the order they are listed, into the **Tall Cup**.

**And** … Twist on the **Cross Blade** and quickly **Pulse** (Page 16) until you reach the desired consistency.

This dip is great, either chunky or smooth. If you want it chunky, don’t overdo the **Pulsing**. Quickly **Pulse**, stop and let the ingredients settle. Use the **Tap** technique (Page 18) to speed up the settling process. **Pulse** again and repeat until you’ve created the bean dip of your dreams!

This dip is great both warm and cold. If you go for the warm version, try adding 1/4 cup of cheddar cheese to the ingredients before you blend it. (If you don’t have room, partially mix the ingredients, then add the cheese.) Take the blade off, place the **Shaker/Steamer Top** on the cup and microwave for about 2-3 minutes (until warm throughout). Give the dip another quick **Pulse** or two, then serve immediately. The warm version goes perfectly with nachos or sliced crusty Italian bread.

**Speedy Guacamole**

A little guacamole trivia: During Super Bowl 2002, football fans consumed 13.2 million pounds of guacamole. Don’t deprive your guests! With this simple, delicious recipe it’s easy to give the gift of guacamole.

- 2 avocados
- 2-3 cloves garlic
- squeeze of lemon or lime juice (optional)
- 1 boiler onion or 1/4 of a regular sized onion (about 1/4 cup)
- 4-6 cherry tomatoes or 1/2 regular size tomato (about 1/4 cup)
- 1-2 sprigs of fresh cilantro
- 1/6 of a jalapeño pepper (optional)
- salt and pepper to taste

**First** … Scoop out the meat of the avocados, discarding the pit, and place it in the **Short Cup**.

**Next** … Place the remaining ingredients, in the order they are listed, into the **Short Cup**. (You may have to cut the tomatoes a bit, depending on the size you choose.)

**Then** … Twist on the **Cross Blade** and place the cup onto the **Power Base**.

**And** … Give it 3 or 4 quick **Pulses** until all the ingredients are chopped and blended. Make sure to apply a bit of counter-clockwise pressure to the cup to keep it from **Locking On**. (See **Pulse** technique on Page 16). Since guacamole is thick, you may need to use the **Tap** technique (Page 18) to make sure everything gets completely chopped.

**Guacamole tastes best when it’s chilled.** Serve with nachos, as a taco or fajita topping, or add a dollop to the top of a juicy burger and dig in. Mm-mmm!
Who needs a caterer when you can do it by yourself in 10 seconds or less? From breathtaking stuffed mushrooms to zesty chicken quesadillas, your guests will think you’re a culinary wizard when you create any one of these quick and easy masterpieces.

Suddenly Stuffed Mushrooms

1/2 cup fresh spinach
1 oz. Parmesan cheese
1 clove garlic
1 boiler onion or 1/4 of a regular sized onion (about 1/4 cup)
splash of chicken (or vegetable) broth

Before you begin … Preheat the oven to 350 degrees.
Start off by … popping off the stems off of the mushrooms, making an area for the stuffing in the mushroom top.
Then … Load all the ingredients, except for the mushrooms, in the Short Cup and twist on the Cross Blade.
Pulse until … the consistency is slightly textured, but not quite smooth.
And … Spoon the mixed ingredients into the mushroom tops and cook on a lightly greased baking sheet for 15-20 minutes.

Pour … over tortilla chips. Serve immediately.

You can add anything you want to the top of your nachos. Guacamole, sour cream, black beans, tomatoes — even leftover chicken — are sure crowd-pleasers.

Cup cleaning made even easier!
When it’s time to clean your Tall Cup, fill it 3/4 full with hot water, then microwave for 45 seconds. That will re-melt the cheese, making cleanup a breeze.

Nanosecond Nachos

This recipe fills about 10-12 mushrooms. If you want to make more, simply double the ingredients.

In-a-Jiffy Flapjacks

With the Magic Bullet, making pancakes is so quick and easy, everyone can have their favorite kind. Start by mixing up the basic pancake batter, then add whatever ingredients your heart desires. You can create delicious blueberry, fluffy apple cinnamon, and hearty banana nut pancakes all from the same basic pancake batter and all in just seconds ... so everyone gets to enjoy exactly the type of pancakes that they’re in the mood for.

1 cup milk
1 egg
1 cup pancake mix (Bisquick or any baking mix)

First ... Add milk and egg (or whatever ingredients your pancake mix requires) into the Tall Cup, then add pancake mix.
Next ... Give the ingredients several quick Pulses until the batter is blended. (Do not overprocess or pancakes can get tough.)
Then ... Pour 1/4 cup portions of batter onto a greased griddle/frying pan and cook over medium heat until the edges look dry, then flip and cook the other side until golden.

The Easy Omelet
Instead of the typical stuffed omelet, this easy-to-make version uses the power of the Magic Bullet to fully integrate the ingredients within your omelet mixture, so every forkful is simply bursting with flavor. No matter what kind of omelet you’re in the mood for, you’ll be eating like a king in no time at all, with virtually no cleanup.

Before you start ... mixing your ingredients in the Magic Bullet, put a little oil or butter in a frying pan and let it start to heat up over medium heat. It only takes a minute or two, so don’t start it too early.

Now ... Add the basic omelet and any additional ingredients in to the Short Cup and Pulse (see Pulse technique on Page 16) until the ingredients are chopped.

Next ... Pour the omelet mixture into the heated, oiled frying pan.
Then ... Set the heat to medium low, put the cover on and cook until the omelet is set.
You might want to ... Use a spatula to pull a corner of the omelet back, letting any stubborn, uncooked egg roll over to the empty area of the frying pan.

The Traditional Omelet
If you’re the type that likes to have the ingredients folded into the middle of your omelet, this preparation style is for you. You’ve never had a lighter, fluffier omelet! Enjoy!

Before you start ... mixing your ingredients in the Magic Bullet, put a little oil or butter in a frying pan and let it start to heat up over medium heat. It only takes a minute or two, so don’t start it too early.

Then ... Add the basic omelet ingredients in to the Short Cup and whip until everything is mixed together.
And ... Pour the basic mixture into a heated, oiled frying pan. Set the heat to medium low and put the cover on.
Now ... Pulse a few times (see Pulse technique on Page 16). Maintain a chunky texture.

And ... When your omelet looks set, add your filling mixture to one side of the omelet and fold the other side over. Heat the omelet for a few more minutes until the filling is warm and serve immediately.

Tips For an even easier omelet, there are microwave-safe omelet cookers available in most department stores. You just pour in your Easy Omelet mixture and pull your fresh, flavorful, steaming hot omelet out of the microwave when it beeps. It doesn’t get any easier! For a low-fat version, simply use fat-free cooking spray to grease the frying pan.

For an even lower-fat version, use egg whites only.

—Now move on to the specific muffin recipe you’ve chosen from the recipes below —

A good way to test if your muffins, or bread, are done: stick a toothpick into the center of the muffin, or loaf; if batter sticks to it, then it isn’t ready yet.

Six-Second Chicken Salad

In all honesty, we had forgotten how simply divine classic chicken salad can be. The nuts and apple create a sandwich spread that is irresistible.

1/4 of a cored apple (about 1/4 cup)  
slice of onion (about 1/8 cup)  
1 cup cooked chicken (leftovers, even luncheon meat)  
2 Tbs. walnuts  
1-2 Tbs. mayonnaise

First … Add the ingredients in the order they appear to the Short Cup and twist on the Cross Blade.  
Then use … the quick Pulse technique (Page 16) to chop and mix the ingredients. Just press down on the cup and release the pressure immediately, pause and let the ingredients settle (or use the Tap technique on Page 18), then quickly Pulse again until you’ve reached a good consistency.

Remember to … Apply a bit of counter-clockwise pressure to the cup to keep it from Locking On. (See Pulsing techniques on Page 17)  
Then … Spread between two slices of bread and enjoy.

Gruel-less Gazpacho

This elegant and tasty traditional Italian soup is a sure crowd-pleaser. Absolutely perfect for a brunch appetizer. If you’re looking to impress your guests, make this gazpacho and it’s a slam dunk.

1/2 red pepper  
1-2 cloves garlic  
1 cup chicken stock  
splash of red wine vinegar  
1/4 of a hothouse (English) cucumber  
sprig of fresh chopped parsley

First … Add all of the ingredients in the order listed to the Tall Cup and twist on the Cross Blade.  
Then … Pulse (see Pulse technique on Page 16) until the consistency is smooth but still has some texture.

Notes

This recipe is for two good-sized bowls of soup, or 4 cups of soup.

Gazpacho is best served cold. For a fabulously fancy appetizer, place chilled, cooked baby shrimp in the bottom of small cocktail cups and pour gazpacho over the top.

Spring suggestion

Vegetarian version. Use vegetable broth instead of chicken broth to create a vegetarian version.

Use as a dip. This can also be used as a tasty chip dip.

Sandwiches

Tired of the “same old, same old” for lunch? Sick of spending your hard-earned money on overpriced lunches because you don’t have the time to pack a lunch? Thanks to the Magic Bullet, now you can have gourmet, transportable, delicious, even fat-free sandwiches that take seconds to make, and cost a fraction of what you pay for takeout.
**Egg Salad Express**

Delicious, flavorful egg salad without the slicing and dicing — how wonderful! A quick and tasty lunch that parents and kids will thoroughly enjoy.

- 2 hard-boiled eggs
- 1 stalk celery
- slice of onion (about 1/8 cup)
- 1-2 Tbs. mayonnaise
- pinch of mustard powder (optional)

**Before you begin** ... Break the celery stalks in half and pull to remove as much of the celery string as possible.

**Then** ... Add the ingredients in the order they appear to the Short Cup and twist on the Cross Blade.

**Pulse using the quick Pulse technique** ... just press down on the cup and release the pressure immediately, pause and let the ingredients settle, than quickly Pulse again until you’ve reached a good consistency.

**And serve.**

Spice things up by adding a little sweet pickle relish, or add a dab of Dijon mustard to your ingredients before you blend. Sprinkle a little paprika over the top and grab yourself a napkin because this sandwich isn’t going to be around long enough to touch the plate!

**Fat-Free version.** Use mustard and a splash of chicken or veggie broth instead of mayonnaise for a tasty, fat-free version.

---

**Soups and Sandwiches**

Even the Magic Bullet can’t defy the laws of physics, so if you’ve overloaded the cup, or if your chicken salad ingredients are too dense for the ingredients at the top of the cup to reach the blade, we recommend you try the Shake or Tap techniques on Page 17 and 18. If it’s really thick, scoop out the finished chicken salad that has accumulated at the bottom, put it in a bowl, then continue Pulsing the remaining ingredients. Once everything is chopped, you can add it all back together in the cup and give it a quick Pulse to mix everything together.

Chicken salad is very versatile. Feel free to add other things into your list of ingredients. Try sprinkling in a little nutmeg or cinnamon. Serve on toast, or add a scoop on top of a mixed green salad. Have you ever seen a more satisfying way to eat leftovers? Bon appetit!

**Fat-Free version.** Use fat-free chicken broth and fat-free ranch dressing, or fat-free plain yogurt, instead of mayonnaise for a zesty fat-free lunch or dinner.

**Stuffed tomatoes or peppers.** Hollow out the inside of a tomato or pepper and fill with chicken salad ... a bread-free, delicious and attractive lunch.

To create **Mick’s Curry Chicken Salad**, skip the apples and walnuts and add a dash or two of curry powder.
**Soups and Sandwiches**

**Stuffed tomatoes or peppers.** Hollow out the inside of a tomato or pepper and fill with egg salad … a bread-free, delicious, attractive lunch.

**Lickety-Split Deviled Ham**

This stunningly delicious sandwich spread is appealing to both adults and kids and couldn’t be easier, or quicker, to make. Its smoky, mustard flavor is unbelievably delicious, just perfect for sandwich platters.

1 1/2 cups cooked smoked ham (or fat free smoked turkey ham)
1/3 cup chicken broth
1 Tbs. Dijon mustard
slice of onion (about 1/8 cup)

First … Add the ingredients in the order they appear to the Short Cup and twist on the Cross Blade.

Then use the quick Pulse technique (Page 16) to chop and mix the ingredients. Just press down on the cup and release the pressure immediately, pause and let the ingredients settle (or use the Tap technique on page 18), then quickly Pulse again until you reach a good consistency.

Then serve!

Serve sandwich-style on bread, or Pulse until smooth and serve it pat’e-style as a spread for crackers, or slices of crusty Italian or French bread.

**Pinwheel Sandwiches.** Deviled ham is perfect for pinwheel sandwiches, just spread the ham and some cream cheese evenly over lavash bread (or tortillas) and roll up into a log. Slice into 1/2-3/4-inch rounds (you may need a toothpick to hold the wheels together) for a lovely lunchtime treat.

**Pasta Sauces**

Each of these pasta sauces is so quick and easy that everyone can have their favorite. In less time than it takes to heat up a jar of sauce on the stove top, you can whip up a batch of creamy Alfredo Sauce, a serving of mouth-watering Pesto Sauce and a rich, hearty Meat Sauce. As if that isn’t enough, cleanup is a breeze. You mix and heat in the same cup. Just throw the cup in the dishwasher and you’re done. No cutting boards, pots or pans! Hooray!

**Im“meat”iate Spaghetti Sauce (Marinara)**

Whether you want to start from scratch, or create a mouth-watering sauce from leftovers, this meat sauce recipe is for you. Every morsel is bursting with flavor.

1/4 cup chicken broth
10-12 cherry tomatoes or 1 (quartered) regular size tomato (about a cup)
1 boiler onion or 1/4 of a regular sized onion (about 1/4 cup)
2 Tbs. red wine (optional)
2 Tbs. tomato paste
2 cloves garlic
2 sprigs basil
1/4 cup raw hamburger, steak or turkey
pinch of Italian seasoning (optional)
salt and pepper to taste

First … Add all ingredients in the order they are listed to the Tall Cup and twist on the Cross Blade. Pulse using the quick Pulse technique … Just press down on the cup and release the pressure immediately, pause and let the ingredients settle (or use the Tap technique on page 18), then quickly Pulse again until you reach a good consistency.

Then serve!
pressure immediately, pause and let the ingredients settle, than quickly Pulse again until you’ve reached a good consistency.

Then … Twist off Cross Blade and twist on a Shaker/Steamer Top.

And … Place the sauce in a microwave safe bowl and cook on high for 8 to 10 minutes, until the meat is cooked. Every microwave is different, so keep an eye on things after 7 minutes; if it looks like your liquid is starting to dry up, use an oven mitt to take the sauce out and give it a stir, and heat for about 30 more seconds. (You may want to add a little water or wine).

Stir … and serve over hot pasta.

Cooking the meat right in the sauce gives it an unusual texture, although the taste is out of this world because all of the flavors are blended together. If the texture bothers you, microwave the meat in the Bullet cup first, then make as usual. This recipe makes two good-sized servings of sauce.

When microwaving for over 2-minutes, we recommend transferring out of the plastic vessel and into glass or ceramic.

Add a little fresh Parmesan cheese to the top of your piping hot pasta dish! Just add a chunk of Parmesan to the Short Cup and twist on the Cross Blade. Chop until the consistency is a coarse powder. Twist on a Shaker/Steamer Top, sprinkle over the top of your pasta and enjoy!

Use leftover meat. If you have leftover cooked meat … follow the same instructions as above but replace the raw hamburger with your leftover chicken, steak, burgers, sausage, pork — whatever you’ve got. You’ll only need to microwave your sauce for about 6 minutes.

Make Bolognese sauce. If you want Bolognese Sauce, just add 1/2 cup of heavy cream and another splash of red wine to cooked sauce and Pulse one or two times.

It’s Ready Already Alfredo

Whoever Alfredo is, we need to hand it to him. This creamy, rich, traditional Italian sauce has been around for hundreds of years for a good reason: it’s amazing!

1/4 cup of heavy cream  1/2 cup Parmesan cheese
2 Tbs. of butter  3 sprigs of fresh parsley
1 - 2 cloves of garlic  salt and pepper to taste

First … Add all ingredients in the order they are listed to the Tall Cup and twist on the Cross Blade.

Then … Blend everything together until smooth.

Next you… Twist off the Cross Blade and twist on the Shaker/Steamer Top.

Then cook … in the microwave on high for 1-2 minutes, until the sauce is heated thoroughly.

And Then … Twist on the Flat Blade and Pulse the sauce 3-4 times. Stir … and serve over hot pasta.

When microwaving for over 2-minutes, we recommend transferring out of the plastic vessel and into glass or ceramic.

This recipe makes one good-sized serving of sauce. Double or triple the ingredients and use the Tall Cup to make more servings.
