

HOW MANY LITRES OF **ZEROWATER** WILL YOU GET?

TAP WATER TDS	CONTAMINANT LEVEL	DESCRIPTION	EXPECTED QUANTITY OF ZEROWATER PER FILTER
000-001	Meets FDA definitions of purified bottled water	No known municipalities.	N/A
002-050	Moderate	Naturally occurring in only a few cities. Can still have dangerous impurities such as lead.	150 litres or more
051-200	Typical Range	Most water in the UK falls into this grouping.	95 to 150 litres
201-300	High	Expect slightly lower capacity.	55 to 95 litres
301-400	Exceptionally High	Most users will notice shorter filter life.	30 to 55 litres
401+	Extreme	The highest TDS water. Expect lower capacity when reducing your water to 000.	30 litres or less

The amount of dissolved solids in tap water varies across the country. Each ZeroWater filter removes 18,000 milligrams of dissolved solids to leave you with ZeroWater. How much ZeroWater you get depends on the initial quality of your unfiltered tap water.
