

De-Solv-it®

CLEANING TECHNOLOGY

Tackles...

Chewing gum, tar, adhesive, wax, wet paint, sticky tape, label residue, crayon, grease, grime, shoe polish, scuff marks, sealant and more!

A powerful solution to those 'icky sticky' problems around the home. Sticky Stuff® Remover zaps even difficult deposits such as tape/sticker residue, tar, grease, chewing gum, make-up, adhesives etc. from glass, wood, metal, worktops, fabrics, tiles and much more.

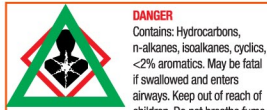

Important: Sticky Stuff® Remover is not recommended for use on silk, leather, suede, unsealed wood, polystyrene, or rubber/foam backed carpets. In all instances, always test on a small unobtrusive area for compatibility before use. Do not use near naked flames or on/close to hot surfaces.

(A) Removing sticky labels, chewing gum or adhesive residue from hard surfaces.

- Remove as much 'glossy' part of the label, adhesive residue or chewing gum without harming the surface.
- Drip Sticky Stuff® Remover liberally onto a clean, dry cloth and apply to affected area
- Leave the product on the surface for 5-7 minutes
- Gently scrape the residue off the surface using a non-scratch item
- Re-apply if necessary
- Rinse the surface with warm soapy water

(B) Removing oil, grease, tar, crayon and similar stains from washable fabrics.

- Blot off as much of the stain as possible using kitchen roll or similar
- Apply the product sparingly onto both sides of the fabric and leave for 5 mins (10 for bad stains)
- Blot area with a dry, absorbent material or kitchen roll
- Re-apply the product sparingly to both sides of the fabric and leave for one minute or so
- Wash the fabric using a pre-wash programme in accordance with manufacturers instructions. Add slightly more detergent and use the highest temperature setting recommended for the fabric:

⚠ DANGER

Contains: Hydrocarbons, n-alkanes, isoalkanes, cyclics, <2% aromatics. May be fatal if swallowed and enters airways. Keep out of reach of children. Do not breathe fume.

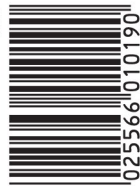

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Do NOT induce vomiting. **IF SWALLOWED:** Call a doctor if you feel unwell. Dispose of contents/ container in accordance with local/regional/national/international regulations. Repeated exposure may cause skin dryness or cracking. Ingredients according to Detergents Regulation 648/2004/EC: Aliphatic hydrocarbons ≥ 30%.
