

Liquids work on some stains, creams do better, but for really stubborn stains nothing compares to Bar Keepers Friend!

YOU CAN USE BAR KEEPERS FRIEND ON:

- **work surfaces** to clean and remove stains caused by tea, coffee, fruit juice, felt-tip, etc.
- **ceramic & stainless steel sinks & basins** to remove dirt, stains, soap scum and limescale.
- **china & glassware** to remove tea & coffee stains, etc.
- **cookers** to clean ceramic hobs and glass oven doors.
- **cookware** to remove baked-on food and rust.
- **chrome**, plastic, formica, tiles, grout, copper and brass.

Bar Keepers Friend is recommended by Wedgewood & Corian.

DIRECTIONS: Sprinkle Bar Keepers Friend onto a wet cloth, rub gently, and rinse. For more stubborn stains make a paste by adding a few drops of water, apply the paste, remove after 1 minute, and rinse well. For brushed metal finishes rub in the direction of the brush lines.

WARNING:

Do not use on mirror-polished stainless steel, gold, silver, or enamel surfaces.

HAZARDOUS INGREDIENTS:

Citric Acid Monohydrate, Sodium Carbonate, Oxalic Acid.

HEALTH AND SAFETY: Keep away from food, drink and animal feedingstuffs. Do not breathe dust. Avoid contact with eyes. Wear eye/face protection. If swallowed, seek medical advice immediately and show this container or label. Keep locked up and out of reach of children.
