

soft & delicate

hand washing solution

how much to use

Soft & Delicate non-bio laundry detergent is designed for hand washing on clothing which requires extra care. It is designed to work at low temperatures but still offers great cleaning and stain removal. The unique formulation uses active agents which remain active in the clothing after washing. This means they keep fighting bad odours. Using low bubble technology, the laundry detergent produces 50% less foam than standard household laundry detergents. This means less time trying to rinse soap suds out of your hand washing.

ideal for cleaning

Silk, woollens, outdoor waterproof clothing, baby clothes, cotton nappies and standard laundry.

kind to delicate clothing

- ✓ Works at low temperatures – 20-30 degrees

for best results

Always check the article's care label and washing instructions. Pre-sort washing and wash dark colours separately. Always check for colour fastness first before pre-treating stains. Do not use neat.

safety note

Keep out of children's reach. In case of contact with eyes, rinse with plenty of water for 15 minutes and seek medical advice if irritation persists. People with sensitive skin should avoid prolonged contact with skin. After use wash and dry hands. If ingested wash mouth with plenty of water. Do not induce vomiting. Drink plenty of water and seek medical help immediately after showing this label.

ingredients

Contains 1-5% anionic surfactants,
1-5% non-ionic surfactants,
1-5% Hygienilac, 15-25% phosphate,
optical brighteners and perfumes.
