### metal polish

Tired of polishing just to see tarnish reappear within weeks? MAAS IT! This powerful wipe on - wipe off formula instantly removes years of residue, rust, tarnish and oxidation from all metals and more (see sides of box). MAAS is concentrated; just a dab restores large areas. Fast - Easy - Handles the toughest jobs yet gentle enough for delicate antiques. MAAS applies a superstrong anti-tarnish corrosion inhibitor plus long-lasting protection.

**Directions:** Apply sparingly to a soft dry cloth and wipe surface (do not let polish dry). Use a clean soft cloth to wipe off. Buff to a lustrous shine. Silverware and other serving pieces may be washed after buffing.

**Stainless Steel:** MAAS applies waterproof protection and long lasting shine on stainless steel sinks. Do not use polish on brushed stainless steel appliances. MAAS Stainless Steel & Chrome Spray Cleaner is recommended to clean, polish and protect brushed factory finishes.

**Plated Metals:** Not recommended for use on thinly plated surfaces.

**Lacquered Metals:** Lacquer must be removed prior to polishing.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**
