25 WIPES

Cleans, revives and protects all types of rubber door seals in one easy wipe!

Rubber Seal Cleaner and Reviver Wipes 25 Wipes

These handy wipes have been specifically designed to clean, revive and protect rubber door seals from mould, mildew and general deterioration. Ideal for use on door seals in the washing machine, tumble dryer, fridge, microwave and dishwasher, in fact any door seal that is exposed to areas where there is water or moisture. The wipes also prevent the door rubber from sticking to the surround.

Directions for Use

To start using the wipes:

1. Remove the lid.
2. Remove seal.
3. Pull first wipe from the centre of the roll and feed through the hole in the lid and tear off at perforation.
4. Always close lid to retain moisture.

Use the wipes to keep mould at bay. Wipe around the door seal on a weekly basis. If any black marks do appear then wipe this particular area. No need to rinse.

Caution

Contains amongst other ingredients: cationic surfactants <5%, non-ionic surfactants <5%, perfume.

Keep out of reach of children. In case of contact with eyes rinse well with clean water and seek medical advice if effects persist.
