Stain Remover & Pre-Wash

REMOVES VIRTUALLY ANY STAIN
FROM VIRTUALLY ANY SURFACE

100ml e

UK MADE

IMPORTANT

- Stains should be dealt with as soon as possible after they occur.
- Try to protect an unsoiled area first for colourfastness and compatibility.
- Stain Zappa is a Pre-wash - don't apply to clothing whilst wearing.
- Some staining may require an additional application.
- Do not use on leather, suede, silk, foam/rubber backed carpets, porous hard surfaces such as unsealed wood, metal or fabrics with patterned or applique designs.

(A) Washable Coloured Old Metal & Fabric

- Remove excess staining.
- Spray onto both sides of fabric and leave for 5 mins - 10 mins for bad stains.
- Get areas with abundant dirt.
- Re-spray area, leave for 1 min and wash item in accordance with manufacturer's instructions using pre-wash cycle at highest recommended temperature.

(B) For Upholstery & Live-Foam Bedded Carpets

- Remove excess staining.
- Spray onto a clean dry cloth.
- Get stain, working towards centre.
- Wash area thoroughly with hot detergent shampoo. Rinse and dry.
- Hard surfaces can be sprayed directly and wiped off when stain has set. Wash surface with warm detergent solution. Rinse and dry.

Note: Chewing gum, wall gloss paint, lac and shoe polish - remove as much as possible BEFORE proceeding to A or B. For large areas or stubborn stains, it is always better to apply several applications SPARINGLY before completing A or B.

CAUTION

Keep out of the reach of children. Repeat if exposure may occur with dryness or cracking. Wash or rinse contaminated areas of clothing as soon as possible after application to remove all residues. Do not breathe the spray. Do not use near naked flames or on hot surfaces.

Contains a range of low ingredients
Aliphatic Hydrocarbons > 20%
Nonyl-9-Phenol 5-10%
