HANGING MOTH PROOFER

Zensect

Zensect

ZERO INSECT

Zensect® Hanging Moth Proofer eliminates all clothes damaging types of moths, larvae and eggs.

ZERO STAINS

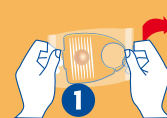

Easy to use : The Hanging container is designed to ensure that there is no direct contact between your clothes and the active unit material.

ZERO CONTACT

Each active unit is packed in a hanging container. No contact with your skin.

Safety Control™ System = Controlled efficiency

Zensect® Hanging Moth Proofer protects your fabrics, even the most delicate (cashmere, silk, wool). Your furs, leathers, coats and blankets will also be protected. Its lavender scent will delicately perfume your closet, with no risk to your clothes or family.

Remove from packaging.

For renew indicator, slide white arrow 5 months ahead the first month of activation.
e.g. Open in March (M) slide to August (A). Replace 6 months after activation.

For wardrobes, hang 2 units on the clothing rail. For use in drawers, use 1 unit per drawer.

Zensect® advice

Moths mainly eat natural fibres such as wool, linen, cashmere, silk leather and fur. We highly recommend you to permanently use Zensect® Hanging Moth Proofer in order to guarantee protection for your clothes all year around.

Dangerous for the environment

PRÉCAUTIONS :

Use only as directed. Keep in a safe place out of the reach of children. Wash hands and exposed skin before meals and after use. Do not attempt to remove the pad contained within the plastic cage. Very toxic to aquatic organisms, may cause long term adverse effects in the aquatic environment. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Do not use in larders or food cupboards. Keep away from food, drink and animal food. When using do not eat, drink or smoke. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. After contact with skin, wash immediately with plenty of water. This material and its container must be disposed of in a safe way. Do not empty into drains. In case of accident or if you feel unwell, seek medical advice immediately (show label where possible). Cellulose pad in plastic case. To interrupt the products efficacy, remove the product and allow the wardrobe to air for 24 hours. Remove or cover all fish tanks and bowls before application. Do not exceed the use of 2 units per 1 cubic metre. For indoor use only.

READ ALL PRECAUTIONS BEFORE USE.

Contains : Transfluthrin 2,19% w/w
